EDUCATION

Software Engineering Program, ALX/Holberton school

03/2023 – 04/2024 | Casablanca, Morocco

Completed in partnership with Holberton School.

Master's degree in computer engineering, Hassan II Ain chock University

2015 – 2017 | Casablanca, Morocco

Bachelor's degree in computer engineering, Hassan II Ain chock University

2011 – 2014 | Casablanca, Morocco

High School Diploma in Science math, Othman ibn affan high school

2010 – 2011 | Casablanca, Morocco

WORK EXPERIENCE

Full Stack Engineer & CloudOps, Valhko

10/2024 – present | London Area, United Kingdom

- Developed and maintained full-stack solutions using JavaScript, React, Next.js, Node.js, and Python for data-driven applications focused on sustainable investments.
- Integrated GPT models and multi-AI agents into applications to enhance functionality and decision-making capabilities, leveraging AI to support sustainable practices.
- Managed Microsoft Azure cloud infrastructure, including configuring PostgreSQL, MySQL and SQL databases, storage, and deploying services to ensure system reliability and scalability.
- Worked on Docker and Kubernetes for containerization and orchestration.
- Optimized performance, addressed security vulnerabilities, and troubleshooted scalability issues.
- automating deployment processes using Ansible and Terraform.
- Collaborated in an agile team environment to deliver AI-driven enhancements and features, contributing to projects supporting sustainability and innovative technologies.

Freelance Full-Stack developer, Upwork

07/2023 – present

Delivered comprehensive web development solutions, specializing in creating and deploying custom web applications across various domains. Key expertise includes:

- Full-Stack Development: Mastery in front-end technologies (HTML5, CSS3, JavaScript, React, Next.js) and back-end technologies (Node.js, Express.js, Django, Flask).
 - Responsive Design & Optimization: Expertise in developing responsive designs, performance optimization, and SEO best practices.
 - UI/UX Design: Skilled in UI/UX design and prototyping using Figma to enhance user experience and engagement.
 - Database Management & Cloud Computing: Proficient in managing databases (MongoDB, MySQL, PostgreSQL) and implementing cloud solutions.
 - Built CI/CD pipelines and integrated Docker for containerization and orchestration.
 - CI/CD Implementation: Experienced in automating deployment pipelines and integrating CI/CD practices to streamline development workflows.
 - API/AI Integration: Integrated APIs and AI tools to build dynamic, feature-rich applications.
 - Implemented automated testing with Jenkins and Robot Framework.
- Successfully led projects from conception through deployment, ensuring high client satisfaction and delivering scalable, efficient solutions.

Web Development Intern, CodeAlpha

08/2024 – 10/2024

My responsibilities will include:

- Contributed to projects, enhancing technical skills and knowledge.
- Developed an "Age Calculator" project built using HTML, CSS, and JavaScript, which I later converted to a React application. On the backend, I used Node.js and Express.js to handle the server-side logic, making this a full-stack application
- Gaining hands-on experience with various web development technologies and tools.

PROFILE

Innovative Software Engineer with a strong background in AI, DevOps, CloudOps and full-stack development. Skilled in designing and maintaining high-performance software applications. Expertise in SQL optimization, cloud infrastructure (AWS, Azure), and technical leadership. Proficient in IT infrastructure, security, and optimization.

Bilingual in French and English, with excellent problem-solving skills and a proven track record of delivering impactful, data-driven solutions. Adept at working in Agile environments and leading technical teams to success.

PROJECTS

Portfolio website,

Developed with Next.js 14 & Deployed on Vercel

03/2024 – 04/2024

- Created a modern, responsive portfolio website using Next.js 14 showcasing personal and professional projects
- Features include interactive chatbot, detailed project sections, and SEO optimization
- Enhanced user engagement by 25% through interactive features
- Deployed on Vercel for optimized performance and seamless hosting, the website demonstrates expertise in full-stack development and front-end design.

AirBnB Clone Project, Built with Python, Flask, and SQLAlchemy | Deployed with Fabric and CI/CD
07/2023 – 04/2024

- Developed a full-stack AirBnB clone, handling front-end, back-end, and database integration.
- Built the backend and command interpreter with Python, enabling core data operations.
- Designed responsive static pages using HTML and CSS.
- Integrated MySQL for data management with SQLAlchemy ORM.
- Created a dynamic web interface using Flask, RESTful API, and JavaScript (jQuery).
- Deployed the application across multiple servers using Fabric and CI/CD methodologies.

Presence Management Application with RFID Integration

Overview: This project focuses on developing a Presence Management System using Visual Basic, integrating RFID technology for attendance tracking. The system automates personnel monitoring by using an RFID reader and identity cards to register user entries and exits.

- Frontend: Visual Basic for user interface.
- Hardware: RFID reader and RFID cards.
- Database: SQL Server, automating personnel monitoring.

- Sharing progress and completed tasks through LinkedIn and GitHub, enhancing my technical portfolio.

Software Engineer Intern, *alx_africa*

02/2023 – 04/2024

- Gained hands-on experience in front-end and back-end development, with a focus on creating scalable software solutions.
- Built numerous projects using a range of programming languages and frameworks to solve real-world challenges.
- Applied industry best practices in project management, communication, and collaboration.
- Enhanced problem-solving abilities and soft skills essential for success in the tech industry.
- Engaged with a dynamic community of tech professionals.
- Developed a full-stack AirBnB clone, handling front-end, back-end, and database integration (see section projects)
- Created a modern, responsive portfolio website using Next.js 14

IT Engineer, *L&H Computer*

2020 – 2022 | Casablanca, Morocco

- Installed, configured, and maintained servers, networks, and storage systems.
- Provided technical support and training, managed data backups, and performed system diagnostics.
- Ensured data security and operational monitoring.
- Responded swiftly to breakdowns (e.g., black screens, lost files, viruses).
- Diagnosed failures, replaced defective components (e.g., hard drives, graphics cards), and conducted control tests.
- Proactively anticipated issues and proposed improvement solutions.

Senior IT Technician, *Mup Maroc*

2018 – 2020 | Mohammedia, Morocco

- Connect and install hardware, peripherals and devices
- Install and update software.
- Provided technical support, monitored IT system performance, managed data backups and security.
- Diagnosed and resolved hardware and software malfunctions, optimizing IT infrastructure.
- Plan a schedule of maintenance interventions

IT Infrastructure Engineer (Graduation Project), *OCP Group*

03/2017 – 07/2017 | El-Jadida, Morocco

- Managed and optimized IT infrastructure, ensuring reliability, security, and performance.
- Responsible for server setup, network monitoring, and infrastructure project support.

Automation Engineer (Graduation Project), *OCP Group*

04/2015 – 06/2015 | El-Jadida, Morocco

Project: Renovation of Automation and Supervision Systems for Fertilizer and Phosphate Handling Unit

CERTIFICATES

- Programming Hub Certifications (Python, HTML/CSS/JS, Next JS, Express JS, Node JS, Typescript, React Development, DevOps, SQL, SEO, Cloud Computing, UI/UX, IOT)
- Microsoft Certified: Azure Fundamentals (in progress)
- AWS Certified Solutions Architect (in progress)
- ALX AiCE - AI Career Essentials
- Certification Cisco: CCNA
- Sales force S001

INTERESTS

- Hobbies: Football, bodybuilding, reading, travel, programming, tech trends, online gaming
- Soft Skills: Problem-Solving & Critical Thinking, Project Management (Agile methodologies, Jira), collaboration and teamwork, time management, adaptability, leadership, customer service, analytical thinking, innovation and creativity

SKILLS

- OS: Linux/UNIX, Ubuntu , Windows, macOS
- Programming: HTML5/CSS3/JS, SQL, Python, Java, C/C++, OOP, SASS, PowerShell, RESTful API, GraphQL, VB, CNC
- Frameworks/Libraries: React, Node.js, Express.js, Django, Flask, Fast API, Docker, Kubernetes, WordPress, Shopify
- Software development tools: Git, GitHub, NPN/Yarn, Slack, Discord, IDE (VS, VS code, PyCharm, Dev Tools, Jest Unit Testing.), Vim and Emacs)
- Database: Advanced SQL & Data Optimization/MongoDB/MySQL/PostgreSQL, Oracle, Apache Cassandra, MS-SQL
- UI/UX Design: Figma, Responsive Design, jQuery
- WordPress Development (Themes, Plugins, Customization)
- Virtualization: VMware, HyperV, VirtualBox
- Project management: Agile/Scrum methodologies, Teams, Notion, JIRA, Trello
- DevOps & Cloud: Docker, Kubernetes, Cloud Services (AWS, Azure), CI/CD (Jenkins, GitHub Actions)
- Testing & Quality & Debugging: Pytest (Python), Jest (JavaScript), Unit testing, Selenium, Jest, Cypress, Postman for API testing
- Administrative tools: Active Directory, PowerShell, Bash
- Web Servers: Apache, Nginx
- AI & ML: GenAI, LLMs, AI Tools, Prompting IA
- Data Visualization, Data Analysis (data management)
- Security Management: FIREWALL, PFSense, Sonicwall
- Knowledge of Oracle databases, Apache Cassandra, PostgreSQL, MS-SQL and Exchange, SharePoint applications
- Maintenance of MICROS-Fidelio OPERA servers, Outlook email, NAS server, etc.
- Network monitoring (Ethernet, Wan and Wifi), security (Proxy, antivirus, firewall).
- Networking: Wireless, VPN, TCP/IP, DHCP, DNS, LAN/WAN, VPN, Firewall, NFV, BGP, MPLS, ISIS, OSPF
- Computer hardware: Installation, troubleshooting, repair and upgrade
- Strong understanding of social media platforms and analytics
- Orchestration & Automation (Scripting, Bash, PowerShell, Python automation, Ansible, Terraform, OpenStack)
- Cybersecurity (Security protocols, Network security, Penetration testing)
- System Integration (APIs, Microservices, Web services)
